

QUIZIZZ

Make learning awesome!

WHY CREATE WITH QUIZIZZ? ACTIVE LEARNING!

Four main uses that make learning interactive and engaging.

1. CREATE YOUR OWN CLASS "TRIVIA"

Divide into groups, create quizzes on subtopics (e.g., plastics, pollution), and play each other's games.

2. PEER-TEACHING

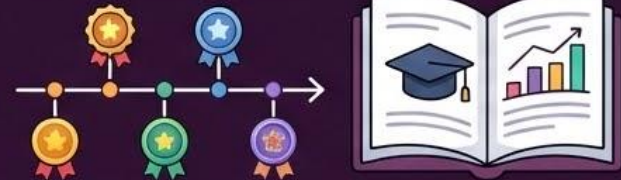

Create challenges for friends. Crafting distractors forces deeper understanding and critical thinking.

3. INTERACTIVE PRESENTATIONS

Use "Lesson" mode. Embed questions every few minutes to check attention and understanding.

4. LEARNING PORTFOLIO

Summarize term learning in a final quiz. A visual, fun way to demonstrate accumulated knowledge.

HOW CAN THEY CREATE CONTENT?

1. CREATE FROM SCRATCH

Write your own questions and answers.

2. USE THE 'TELEPORT' FEATURE

This is the star feature. They can search for questions from other public quizzes and “teleport” them to their own. It’s great for quickly putting together review sessions.

3. QUIZZZ AI

Currently, the platform allows you to generate questions from text or a YouTube link. Students can use this to create challenges for their classmates.

WHAT CAN WE DO WITH QUIZIZZ?

INTEGRATE & ENGAGE: Create an activity based on our Prezi presentation for all students to **'play'** together.
